MUSKETAQUID

All my hurts
My garden spade can heal.
A woodland walk
A quest of river-grapes, a mock-
ing thrush,
A wild rose or rock-loving
columbine,
Salve my worst wounds.

always grow and yield the finest flowers

GOD'S LOVE, AND BEAUTY

"My Father in Heaven, help me never to forget Thy Love to me. It comes with the light of the morning, and it remains with the light of the stars of the night. It looks up at me in the beauty of the flower. It shines upon me in the smile of a friend. All beautiful things are the gifts of Thy love. Help me to be thankful, and to link every beautiful thing with Thee.—Amen."

Prompt Service Good Germination

Rocky Mount, Va. Jan. 20, 1949
Dear Flower Friends:
Rec'd my seeds today ordered
from you a few days ago. It is
indeed a pleasure to deal with
you as I always get such prompt
service and good germination.
Most of the plants in my flower
garden are from your seeds.
Thank you very much. Your
customer, Mrs. Silas Altice.

WM. J. PARK, V. Pres.
Grows the plants for you

DEAR PATRON FRIENDS

Peace! Between nations, it is the result of a majority of the individuals of each nation having peace within themselves. Some of Webster's definitions of Peace are: A state of tranquility or quiet; harmony in personal relations; freedom from fears, agitating passions, and moral conflict. If we as individuals have this kind of peace, we can forget about world conflicts.

I believe that Gardening fulfills a fundamental need in the lives of men. In our highly industrialized land, we have gotten so far from nature, and in many cases from God, that we have lost track of many of the good things life offers us. We are so hurried in our daily jobs, so worried about atomic bombs, that our lives are not peaceful as defined above. Gardening will help us find that peace.

Which of us can get close to mother earth—work the soil, plant seeds and watch them break through the soil, grow, and reward our efforts with breathtaking beauty found only in God's handiwork—and not experience freedom from every-day cares. There, too, we can think more clearly, evaluate our problems in better perspective. God's wonders are so clearly revealed in the quiet of the garden that we wonder not the poet said "You are nearer God's heart in the garden than any place else on earth."

Take your cares to the garden and come away refreshed, at peace with God and the world, knowing that you are contributing your share toward peace in the world as well as enriching your own life.

"The Peace of the Garden" expresses itself in terms of friendship too, and these repeated greetings, and the many pleasant letters that come to us every day have brought us into the happy relationship of friends. In behalf of all of us at The Geo. W. Park Seed Co., I wish to thank each and every one of you for your kind expressions as well as your continued patronage.

During the course of the past 82 years, this business, founded in 1868 by Geo. W. Park, has served members of many families during each of three generations. The Geo. W. Park Seed Company has grown along with our great United States, so that now with 82 years of experience to draw on, and an organization built up over a long period of time, we are prepared to offer you the finest seeds and bulbs grown in the world today, and the best of service.

It is a special pleasure, this year, to hand you our Flower Book, revised and improved in various ways to make it more attractive and useful to you in the selection of your seeds and the care of your plants.

I wish you all success and pleasure in your gardening.

Floricordially yours,

GEO. B. PARK, President.

THIS IS WHAT WE CALL "A FAIR DEAL"

We want you to be completely satisfied—Pleased with every packet of seeds, every bulb, every plant you order from us. Please tell us if an error is made (This does sometimes happen, for "To err is human") or if for any reason you are not pleased with the seeds or bulbs or plants we send you. We are never satisfied until you are and shall be glad to remedy whatever may not be entirely as it should be.

WE GUARANTEE the safe delivery of all seeds, bulbs, and plants.

WE GUARANTEE our seeds, bulbs and plants, to the full extent of the purchase price, to be true to name and sure to grow under favorable conditions. We will always do more than fair dealing demands to give you satisfaction. Because weather conditions and other things over which we have no control sometimes cause crop failure, we can not be responsible in any way for the crop, and in no case for more than the purchase price.

FREE DELIVERY: We pay all transportation charges on all seeds and bulbs. Accessory items are postpaid except those described as not prepaid.

CUSTOMER pays postage on plants after arrival. Note the amount of postage used and remit in envelope provided.

GROWING FLOWERS IS A FRIENDLY OCCUPATION—Share your catalog with your friends.

IF YOU ARE IN A HURRY

We normally mail seeds the day your order arrives, however, parcel post has not been quite as rapid as usual during the past few years, so if you wish your seeds in a hurry and include a few extra pennies for postage, we'll rush them back to you by First Class or Air Mail.

FIRST CLASS: Add 6c for each \$1.00 worth of Flower Seeds.

AIR MAIL: Add 12c for each \$1.00 worth of Flower Seeds. If postage cost is less than amount you send, we'll enclose the extra postage with your seed. THIS OFFER APPLIES TO FLOWER SEED ONLY.

PRICES

ALL SEED: PKT. 10c; 11 for \$1.00

TO INSURE YOUR SUCCESS

1—The Seeds We Sell Are All of the New Crop
Grown by specialists in many parts of the world, TESTED FOR GERMINATION AND PURITY. Sure to grow and give you the finest results.

It takes no more time and effort to grow seeds from the best strains, so start with the best and save disappointment at flowering time by ordering direct from Park.

2—To Prevent Disease and "Damping Off"

Nearly all soils contain harmful fungi, which if not controlled, attack the seed and cause what is known as "Damping Off" (This usually happens just before or just after the baby plants emerge from the ground). Also there are present on the surface of most seeds certain pathogenic fungi which, if not destroyed, cause the seed to decay. (This is especially true in cold damp weather.) These often account for poor, uneven stands and weak, non-vigorous young plants. Fortunately, in recent years agricultural scientists have shown that certain chemicals will destroy the disease organisms and protect the seed from attack by organisms present in the soil.

AS A REGULAR PARK SERVICE

WE TREAT ALL VARIETIES OF 82 Species of FLOWER SEEDS (This includes the greater part of those we offer) and ALL VARIETIES OF VEGETABLE SEEDS with the most effective of Seed Treatments as recommended by Experiment Stations. Better germination, stronger plants, higher yields will thus be yours with Park's Treated Seeds.

Provides a brilliant color range lacking heretofore in Nicotiana. Bright scarlet, crimson, rose, mahogany, violet, yellow, coral, lilac and white are found in an interesting variety of shades. The blooms remain open all day. Pkt. 25c.

Raspberry Rose Pansy

1497—PANSY SWISS GIANT RASPBERRY ROSE. An entirely new color in the Swiss Giant strain. A lovely tint of pink best described as Raspberry Rose. It has a suggestion of a lighter tone on the edges and is marked with a velvety blotch in a deeper tone. Pkt. 25c.

1496—PANSY SWISS GIANT ORANGE. Fully described on page 5. Pkt. 25c.

1499—PANSY READ'S NEW CENTURY SCENTED. An entirely new strain of Pansies from England in which has been developed an exquisite fragrance and a color range which baffles description. Blooms average 3½" in diam. and are of unusual substance. 15 seeds 25c; 40 seeds 50c; 100 seeds \$1.00.

ASTER LITTLE GIANTS Wilt Resistant—12 inches high.

Here is a distinctive new type of early Aster. Plants grow 12 in. tall and form a perfect mound of flowers. Its blooms are of the feathery Crego type 4-5 inches across and a plant will have 40-50 blooms at one time.

273—Azure Fairy. Lavender. Pkt. 25c; 273A—Rosamond. Rose pink. Pkt. 25c.

274—White Mound. Pure white. Pkt. 25c; 274A—Mixed of above. Pkt. 25c.

657A—PALM SPRINGS or DESERT DAISY (Cladanthus Arabicus) hha. 2½ ft. Extremely floriferous. The rounded plant is covered with bright yellow flowers. Unusual in growth. A flower terminates each branch, which then branches again to produce additional flowers. Pkt. 25c.

570—CLEOME GOLDEN QUEEN. A new color in the Spider flower. Blossoms resemble Cleome Pink Queen, but are a rich gold in color. Pkt. 25c.

634A—DWARF PINK FIRMAMENT Cyanoglossum. Ha. 18 in. The pink counterpart of popular Dwarf blue Chinese For-Get-Me-Not Firmament. Dwarf compact growth, delicate mauve pink frs. Pkt. 25c.

847A—NEW LARGE FLOWERED DOUBLE HYBRID Gaillardia Lorenziana. A new strain of the largest flowered and most colorful Gaillardia we have ever seen. Large, ball-shaped double flowers are in complete range of colors from cream-white to deep maroon. Pkt. 25c.

1225A—DWARF ANNUAL LUPIN 8" Pixie Delight, ha, 8 in. A gay little mixture of pleasing shades of pink, rose, blue, lavender, and white as well as bicolor combinations. Very early, free blooming.

THE NEW "SUPREME" LARKSPUR (Imperial Type)

An entirely new strain of the popular Giant Imperial base branching type with five entirely new colors and white which is greatly improved. Plants have ideal upright habit, with tremendous main flower spike closely covered for half its five foot length with large, fully double flowers with broad petals. 1124—Supreme Mixed. Pkt. 25c. Colors Pg. 7.

THE LATEST IN LARKSPURS "REGALE STRAIN"

Victorious Petunias

1565—Illumination. Large well fringed flowers of bright red with scarlet sheen. The brightest of all Victorious Petunias. 15 seeds 25c; 100 seeds \$1.00.

PETUNIAS ARE IN THE LIME-LIGHT and we offer a number of new varieties. Fully described on pages 8 and 9 are Dwarf Fringed Innocence and Rose Charm, a number of exceptional F₂ Hybrids and on our front cover Gold Medal Firechief and the following:

1591A—White Mound. Grandiflora Single Fringed. Large fringed flowers of pure white cover the dwarf mound-like plants. Pkt. 25c.

We invite your special attention to the fine new flowers listed on pages 2, 3, and 4. You will find almost every variety offered by any seedsman listed in the body of the book, but these three pages we have reserved for those which we consider of special merit. The All American Gold Medal winner Petunia Fire Chief and a majority of the flowers listed on pages 2, 3 and 4 are offered for the first time this year. There are also a number of flowers listed throughout the catalog for which we did not have room on these pages which are entirely new. You will like them all.

DWARF BUSH MORNING GLORY

1041—IPOMOEA BLUE MOUND. 12 in. Dwarf bush, mound-like form of the well-known Heavenly Blue Morning Glory. For a charming border, garden vase or accent point. Pkt. 25c.

1498—PANSY BUTTERFLY HYBRIDS. A Pastel strain resulting from 10 years of Hybridization work by Mr. D. M. Steele. Flowers are ruffled and fluted, with butterfly sheen of metallic jewel tones. 25c.

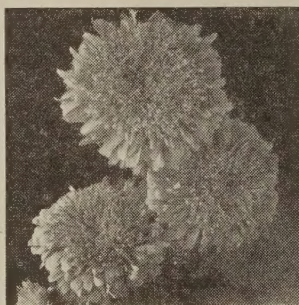

VERBENA BUSH TYPE

(Giant Flowered)

2044—Starlight

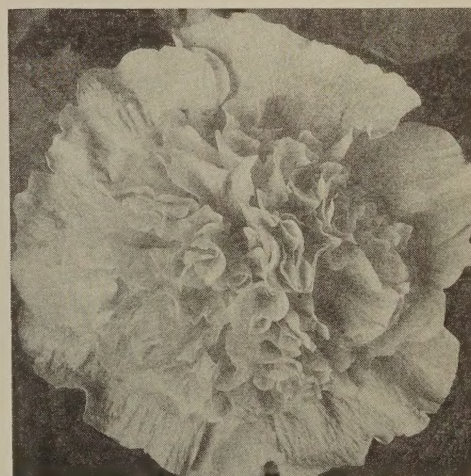

Bush type Verbena was introduced in 1948 for the first time in the variety Salmon Queen. This proved very popular because of the new habit of growth: The broad, flat-topped, bushy plants are 8-10 in. high and 12-15 in. across. The flower heads practically touch each other covering the plant completely with no bald or open spaces. 2044—STARLIGHT. (Introduced in 1949) Bright mid-blue with creamy white eye. Pkt. 25c. 2045—SALMON QUEEN. Salmon pink. Pkt. 25c. 2042—ROSELIGHT. Latest addition to the Bush-type family. Bright rose-pink with white eye. Profuse blooming and uniform of habit. Pkt. 25c. 2043—BUSH TYPE MIXED. From the trial ground of the originator of above varieties by special arrangement. Includes many colors. 25c. 2058A—VERBENA DWARF COMPACT Pixie. 6 in. mound-like plants covered with brightest scarlet flowers, each having a cream eye. Pkt. 25c. 2053A—VERBENA SUTTONS BLUE Hybrid Grandiflora. The first real pure mid-blue (Gentian Blue) in Verbenas. Color is solid, no eye. Pkt. 25c.

THREE BRAND NEW COLORS in the popular, highly wilt resistant Princess Asters. You'll find them in color picture inside front cover.

217—ELIZABETH. Pure white. 25c. 215—MARGARET. Florist Rose. 25c. 217—SUSAN. True deep blue. 25c.

1650A—White Queen. Grandiflora. Huge blooms are 4-4½ in. across as pure white as falling snow without a sign of blue cast. Pkt. 25c. 1574A—Royal Rose. Balcony type. Clear warm, rich rose. Flowers are larger than other balcony type Petunias. Pkt. 25c.

DOUBLE ANNUAL HOLLYHOCK

1016—Indian Summer Mixed

Blooms in 5 months from seeds and lasts for years. Pkt. 25c; 3 pkts. 65c.

CAPISTRANO. (PAF) (Hyb. Tea) Flowers sometimes reach a full six inches across and are of a rich glowing rose-pink that does not fade. Fragrant. Disease resistant, unusually vigorous. Ea. \$2.50; 3 for \$6.30.

ALL AMERICA WINNERS 1949

FORTY-NINER. (Pat. No. 792) (Hyb. Tea). The large, pointed, yellow buds open brilliant orient red, change later to cherry red, on the inside of the petals and deep chrome yellow changing to straw yellow on the outside. \$2.00 ea.; 3 for \$5.00.

TALLYHO. (P.A.F.) (Hyb. Tea). Here is a color never before seen in roses. Soft rose red inside the petals, shaded cardinal red outside. \$2.00 ea.; 3 for \$5.00.

BEARDED IRIS

A REAL BARGAIN: A friend of ours, who is one of the best Iris growers in the country, has a field of Iris containing 55,755 plants. These plants are all of very good varieties, many of them being very expensive novelties. These plants would normally range in price from \$1.00 to \$10.00 per plant. The labels on these plants were misplaced or destroyed by thoughtless, really criminal pranksters. Therefore the plants cannot be sold under their proper names, and we are therefore able to make this bargain offer on these very fine Iris.

MIXED IRIS: 25c each; 3 for 60c; 12 for \$1.95; 100 for \$15.00.

ORDER EARLY. This offer is good as long as they last.

Lily White Queen blooms in 15 months from seeds

1167—**LILY WHITE QUEEN.** This new strain flowers in 15-16 months from seed. The flowers are pure white. See picture above. Pkt. 25c.

1151—**SULPHUR HYBRIDS.** 4-6 ft. Giant trumpet Lilies ranging in color from pale to sulphur yellow. Very vigorous, excellent for cutting. Result of crossing several species on L. Sulphureum. Pkt. 25c.

1151A—**AURELIAN HYBRIDS.** Perhaps the most important of the new Hybrid Lilies. Seedlings vary in shape and color, some being reflexed, others almost trumpet-like with colors from white thru yellow, orange, apricot. Pkt. 25c.

1150—**CENTIFOLIUM Hybrids "Olympic Strain".** The finest trumpet Lilies today. Many new colors. Pkt. 25c.

1013A—HOLLYHOCK DOUBLE TRIUMPH SUPREME

Color range of unsurpassed variety. All the favorite colors plus vivid scarlets, orange, and buff combinations not found in existing strains. Full double blossoms gracefully waved and fringed. Early blooming qualities flower this strain along with the annual sorts and earlier than many. Rust resistance is present to a high degree. Pkt. 25c.

1495A—ROGGLI'S GENUINE ORIGINAL SWISS GIANT PAN- SIES MIXED.

Do not confuse this with the "Roggli" strain offered below which is several generations removed from the original. Seeds we offer here are direct from Mr. Roggli, the Swiss Originator of this world renowned strain. Since it was originally offered it has become the standard others attempt to attain, but the Roggli's have continued to improve it and it is still the finest to be had in the world today. Huge flowers are produced on long erect stems. The color range is superb. There is a tendency toward the handsome deeper tones of red and blue, but it is well balanced with lighter yellows, whites, light blues. 60 seeds 25c; 300 seeds \$1.00; 1/32 oz. (about 800 seeds) \$2.00; 1/16 oz. \$3.75; 1/8 oz. \$6.75; 1/4 oz. \$12.

GIANT PANSIES

A PARK SPECIALTY

Pansies are well and favorably known, so that a description of their exquisite beauty, and usefulness in the garden is unnecessary. They are simply indispensable, and if we were to name a half dozen of our best seedling flowers, the Pansy would be one of them. There is, however, much difference in the strains, some being greatly superior in vigor and free-blooming quality to other plants as well as the great size, form, variety, and richness of colors and variations. We are pleased to say that the seeds we offer are from Pansy specialists, all of the new crop, and cannot be surpassed in quality, regardless of claim or price.

The Largest and Finest of All Pansies

We offer ORIGINATOR'S Seeds of the FOUR FINEST PANSY STRAINS in the World.

SLUIS BROTHERS' SUPER GIANTS SWISS PANSIES

The flowers are not only Giants but Super-giants their size being enormous, and what is more, they include a range of colors and variegations that have never been approached in giant Pansies. Messrs. Sluis in Holland have grown the seeds for us from special re-selected plants and flowers. Our seeds can, therefore, be absolutely relied upon to yield the finest—the very finest—Pansies. Pkt. (50 seed) 10c; Giant Pkt. (200 seed) 25c; 1/32 oz. 75c; 1/16 oz. \$1.35; 1/8 oz. \$2.00; 1/4 oz. \$3.50; 1/2 oz. \$6.00; 1 oz. \$11.00. Order No. 1495.

ROGGLI SWISS GIANTS
IMPROVED ROGGLI SWISS GIANTS. Most popular of the Giant Pansies, this group is enthusiastically admired for its exquisite colors and huge size. Color tendency is toward the handsome deeper tones, well balanced by yellows, whites and light blues. 1473—Superb Mixture. Pkt. 10c; Giant Pkt. 25c; 1/32 oz. 50c; 1/16 oz. 95c; 1/4 oz. \$3.00.

SWISS GIANT COLORS

We offer the following fine Roggli colors:

- 1465—ALPENGLOW. Cardinal shades. Pkt. 10c; Giant Pkt. 25c.
- 1466—BERNA. Dark violet blue.
- 1466A—BLACK KING.
- 1478—CLARET. Wine red.
- 1467—CORONATION GOLD. Canary yellow, lower petals flushed golden orange, slightly ruffled.
- 1468—FIRE BEACON. Brick red.
- 1469—LAKE OF THUN. Thuner Sea blue.
- 1470—RHEINGOLD. Yellow with blotch.
- 1471—WHITE. Pure white.
- 1472—YELLOW MASTER. Pure yellow.
- 1496—SWISS GIANT ORANGE. Color is vivid orange, the upper petals with a halo of golden yellow, the lower petal is deep orange. Flowers are perfectly round with overlapping petals of good substance. Introduced and grown for us by Vis Bros. in Holland. Pkt. 25c; 3 pkts. 65c.
- 1497—GIANT RASPBERRY ROSE. An entirely new color in the Swiss Giant Strain. A lovely tint of pink, best described as Raspberry Rose. It has a suggestion of a lighter tone on the edges and a velvety blotch in a deeper tone. Outstanding, new. Pkt. 25c; 3 pkts. 65c.

- Roggli's Swiss Giants for color and size
- Engelman's Giants for heat resistance
- Ellis' Oregon Giants finest ruffled flowers
- Steele's Jumbo Mixed early bloom
- 1479—A Blended Mixture of 4 strains above. Pkt. 25c 400 seeds \$1.00.

1482—ENGELMAN'S GIANTS. Seeds we offer are direct from Mr. Engelman. This strain is particularly noted for its heavy texture and very strong stems which enable it to hold up better during hot weather than any other strain. Flowers are of giant proportions and the color range is complete tending toward the brighter colors, many being penciled or veined giving a striking and different effect. 30 seeds 10c; 100 seeds 25c; 1/32 oz. \$1.00; 1/16 oz. \$1.75.

1484—STEELE'S JUMBO MIXED. Field plants producing flowers up to 5 inches in diameter. Many new and unique colors—pastel pinks, apricots, yellows, blues, brass tones, copper bronze, purple, red in various combinations and self colors. Fully two weeks earlier than other strains. Pkt. 10c; Gt. Pkt. 25c; 1/64 oz. 75c.

RUFFLED OR FRILLED

1487—THE OREGON GIANTS. Originated and grown for us by Mrs. Merton G. Ellis in Oregon, this is by far the finest American strain of Giant Ruffled Pansies. The color range is superb, well balanced and complete. The flowers are very heavy textured, 3 1/2-4 1/2 in. in diam. and heavily ruffled. We highly recommend this as the best ruffled Pansy in existence. 100 seeds 25c; 500 seeds \$1.00; 1/16 oz. \$1.75.

1489—Masterpiece, Mixed. Crinkled and ruffled blooms of such great substance as to appear double. Colors mostly in richer deeper tones. Pkt. 10c; Giant Pkt. 25c.

1488—Park's Pedigreed Exhibition Giant Art Shades

Developed for all the best qualities of early, huge, long stemmed splendid textured flowers with particular selection of art and pastel shades, these plants produce a unique and strikingly beautiful effect. Pkt. 10c; Giant Pkt. 25c; 1/32 oz. 75c.

SWEET SCENTED PANSIES

1499—READ'S NEW CENTURY SCENTED. Introducing an entirely new strain from England, in which has been developed an exquisite scent and color range which baffles description. Includes many new colors. Blooms 4 1/2 in. in diam. have been recorded, while 3 1/2 in. is average. Petals are stiff and fleshy enabling the flowers to keep well even when buffeted by wind and rain. Originator's seeds. Pkt. 15 seeds 25c; 40 seeds 50c; 100 seeds \$1.00.

1948—BUTTERFLY HYBRIDS

Something really different in Pansies. A strain mainly of pastel character in shades of pink, rose, apricot, buff, orchid, pale gold, coral and flesh. The form is unbelievably ruffled, fluted and marked with sun rays and blotches of butterfly sheen metallic jewel tones. 40 seeds 25c; 200 seeds \$1.00; 1/32 oz. \$2.95.

GIANT FLOWERED—SPECIAL COLORS

- 1475—AZURE GIANTS. The largest flowered of the brilliant blues—deep dazzling blue.
- 1474—RED GIANTS. Huge flowers of great beauty, of all cardinal colors. A worthwhile addition.
- 1476—WHITE GIANTS. Perfect flowers, large.
- 1477A—MOON MOTH. Immense pure white. 25c.
- 1476A—JUMBO MADAME STEELE. Huge purple. Pkt. 25c.
- 1474A—JUMBO PAY DIRT. Largest golden yellow ever produced. Resists summer heat. Pkt. 25c.
- 1475A—JUMBO BRONZE TONES. Immense. 25c.
- 1477—TRIMARDEAU or Giant Bedding Mixed.
- 1463—GIANT STRIPED VARIETIES. Striking.
- 1490—CURLED DOUBLE FRINGED MIXED. A fine and unusual strain originating in Holland. A choice color blending. Pkt. 25c.
- 1491—GIANT ORCHID FLOWERING. A soft fancy colored mixture of great beauty.
- 1486—MAPLE LEAVED GIANTS MIXED. Robust compact plants, large flowers. Maple-like leaves.
- 1493—SUPER CANADIAN GIANTS MIXED. A selection from Maple Leaf Giants containing some of the largest flowers in Pansies. Pkt. 25c.
- 1494—WONDERFUL PEDIGREED. Early flowering robust plants.
- 1480—DWARF SWISS GIANTS MIXED.
- GIANT WINTER BLOOMING PANSIES** These are unusually hardy and bloom very early in spring; indeed where winters are mild they bloom thruout the cold months, with a little protection such as a cold frame they will bloom during the northern winters.
- 1483—ICE PANSY (Hymalis). Winter Flowering Early Giant. A complete mixture of colors.
- 1481—DON'S WINTER FLOWERING. Pkt. 25c.

You'll adore a bed of Colorful Giant Pansies grown from Park's Seeds.

AQUILEGIA

HARDY PERENNIAL

or COLUMBINE Queen of Flowers

Yours for the choosing. Pictured in color inside front cover. Grace, color, sheer beauty of form.

Red, yellow, pink, blue, white; long spurred and spurless, which do you want?

Hp. Choice cut flowers, borne on strong wiry stems in profusion during spring and early summer. The foliage is airy and graceful, delightful in the border. One of the most easily grown perennials, very dependable and long lived. One year old plants may be forced for winter bloom in the greenhouse. Seed sown inside in early spring will usually bloom in fall the first season. Likes partial shade.

COLUMBINE CULTURE: This subject is treated fully on pg. 12 of "The Gardener's Handbook" sent free with your order.

Seed may be sown in frames in spring, early summer or fall. Germination takes about 4 weeks, but the seed is very dependable and almost every one planted will come up, if the bed is kept moist. The plants like a cool, moist partly shaded location.

156—ALPINA, 18 in. Dwarf, deep blue.
157—BLUE SHADES. Long spurred variety of all pretty blue tones.

160—CHRYSANTHA, 2 ft. Attractive rich yellow.

161—CLEMATIFLORA (New Spurless Columbine). Medium height, compact, free flowering; large open Clematis-shaped flowers in delicate colors.

162—COERULEA, Rocky Mountain Columbine, 2 ft. Sky blue, white corolla. One of our best.

163—CRIMSON STAR, 2 ft. Petals striking crimson and white centers and blooms 3 in. and more across. Brilliant. Blooms May-June. Hardy.

164—DOBBIE'S IMPERIAL HYBRIDS, 3 ft. One of the finest improved strains. Long spurs, large flowers in an excellent range of colors and combinations. Recommended.

165—LONGISSIMA. Noted for unusually long, slender spurs, 4-5 in. long, giving the pale yellow fls. an exceptionally graceful effect. From Northern Mexico, likes hot dry places. June flr.

166—LONG-SPURRED HYBRIDS. Novel colors in mixture.

168—NANA ALBA. A dwarf large flowering plant bearing milk white flowers of rare beauty.

169—JAETSCHAU, 2 ft. Yellow with red spurs.

Aquilegia, Longissima

161—Aquilegia Clematiflora. Pkt. 10c.

Aquilegia—Mrs. Scott Elliott's Hybrids

PLANTS: Mrs. Scott Elliott's Hybrids and Crimson Star—See pg. 25.

167—MRS. SCOTT ELLIOTT'S HYBRIDS. Long Spurred. Beautiful, most popular long spurred mixture.

170—PINK SHADES. Delicate pink with long spurs.
171—RAINBOW MIXTURE OF COLORADO VARIETIES. A fine blend of many colors of Mountain Aquilegia.

172—ROSE QUEEN, 2 ft. Soft rose, white corolla.

178—SKINNERI. 3 ft. Flowers 1½ in. across are yellow with showy green sepals, and 2 inch red spurs.

173—SNOW QUEEN OR SILVER QUEEN. 2 ft. Beautiful silver white tinged cream at throat. Fragrant flowers in May and June. Best white.

174—DOUBLE FLOWERED MIXTURE. 2 ft. Comes in many forms and colors. Surprising and delightful.

175—VULGARIS EDELWEIS. Long stems, snow white flowers.

176—PARK'S SPECIAL COMPLETE MIXTURE, all varieties.

VIOLA CORNUTA—VIOLETS OR TUFTED PANSIES

Companion plants to Pansies, though flowers are not as large. Admirably adapted for rockery, beds, and borders as the colors are bright and attractive, plants are sturdy and free blooming, thriving in moist partial shade with no enemies. Pkt. 10c; Giant Pkt. 25c.

2073—ARKWRIGHT RUBY. Ruby crimson shading to terra cotta. Flowers larger than ordinary.

2074—AVALANCHE. Large, pure white. 25c.

2076—BLUE BEAUTY. Very early, brightest blue.

2077—BLUE ELF. 9 in. Upper petals deep violet blue, lower petals light blue, gold eye.

2078—BLUE PERFECTION. Pretty medium blue.

2079—CHANTREYLAND. Best pure apricot.

2080—ILONA. Wine red.

2084—LUTEA SPLENDENS. Deep golden yellow.

2086—HELEN MOUNT. Bicolor, violet, yellow.

2091—YELLOW GEM. Fine long stems, golden.

2102—KING HENRY I. Deep violet with heavenly blue center and bright yellow eye. A very attractive and delightful novelty. Pkt. 25c.

2085—THE BLACK IMP. Viola Nigra. Quaint little flowers that might have been snipped from black velvet. Blooms quickly and true from seed.

2093—MIXED. Complete mixture of all colors.

CHOICE GEMS

The Gem class is more compact in growth, very free flowering; flowers are larger and slightly ruffled. These are ideal for the border.

2082—JERSEY GEM (Blue Gem). 8 in. Flowers rich velvet blue with slightly ruffled petals are borne on long stems. An excellent variety for cutting. Slightly fragrant.

2088—ROSE GEM. Deep rose. Unusual.

2091—YELLOW GEM. Pure yellow. Long stems.

2089—WHITE GEM. Pure white.

2092—GEM MIXED. Special mixture.

2104—PEDUNCULATA. (Pansy Violet) Stems ascending, often 2 ft. long, bearing in each leaf axil large round 1 inch purple centered orange flowers. Pkt. 25c.

2103—VIOLA DOUGLASHII (Chrysantha). A delightful species. 5 in. Flowers are orange-yellow veined with purple. The leaves are deeply lobed giving a fern-like appearance. Pkt. 25c.

2094—LITTLE JOHNNY JUMP UP. hp. 4 in. "The Old Fashioned Violet." Diminutive Pansy charm. Flowers show tones of lemon, lavender, rosy mauve, lilac, gold, violet. Floriferous, bright.

Viola Cornuta—Park's Pride

2081—PARK'S PRIDE IMPROVED SCOTCH BEDDING. VIOLA CORNUTA. A grand New bedding hybrid mixture of all the finest, brightest, gayest colors in the largest size flowers and most robust plants. A supreme mixture.

PERFUMED VIOLA ODORATA

2095—THE CZAR. A very large flowered, bright blue, delightfully scented.

2096—SWEET VIOLET or Tufted Violet, hp 4 in. (Viola Odorata semperflorens). Blue, sweet.

BUTTERFLY VIOLETS (Papilio)

Hp. Blooming the first season. Hardy and free blooming. The flowers are larger than other Cornuta varieties, and usually have purple centers.

2098—Light blue; 2099—Yellow; 2100—White;

2101—Mixed.

SELECTING AND SOWING

If you wish seeds to sow in a garden bed or to present to children, or if you have had but little experience in raising flowers from seeds, select such flowers as Alyssum, Asters, Balsams, Cosmos, Calendula, Candytuft, Oriental Pinks, Gaillardia, Helianthus, Marigold, Mignonette, Bedding Petunia, Pansy, Phlox, Ricinus, Scabiosa, Nasturtium, Valerian, Verbena and Zinnia; for vines get Coboea, Cypress, Dolichos, Gourds, Morning Glory, Thunbergia. Even in sowing these it is well to prepare the bed carefully in a sunny exposure; place a low board frame around it and after sowing, water and cover with a newspaper until plants appear. If you sow seeds in the open with full exposure to rain, wind and sun, you should not complain if few of the seeds become plants. TO INSURE SUCCESS. Many failures with seeds are due to lack of knowledge of the time required by the seeds to germinate. Study the table on pages 45 and 46 to avoid failures from this cause. Follow instructions in the "Gardener's Handbook."

—OUR CUSTOMERS SPEAK—

Every year we receive hundreds of letters telling us of the joy gardening brings, and praising our seeds. We wish to thank each of you for this interest shown, and assure you that we shall do our best to continue to merit your praise.

Gentlemen: May 2, '49 Greenville, S.C. The Pansy plants I ordered from you last fall sure are fine. They have the largest blooms I have ever seen. Your Flower Friend, M. W.

Dear Sirs: May 2, 1949, Newark, N. J. I don't believe there were Delphiniums the equal of mine in New Jersey, and all were from Park's Round Table Series. Joseph Kunkel.

Gentlemen: May 1, '49, Brooklyn, N.Y. Just a word to tell how pleased I was with the Portulacacs. They were beautiful. E. L. B.

Dear Mr. Park: Basking Ridge, N. J. Have been a Park patron and enthusiast for more than 53 years. Never had any complaints. A. L. K.

Dear Friends: Apr. 8, '49, Banks, Ala. Some years ago I seemed to discover that the Park's People love people as well as flowers. That is as it should be. C. H.

Gentlemen: Feb. 28, 1949, Lawrence, Kans. The Caladiums and Amaryllis I bought from you last year were fine—the finest I ever had. L. T.

Park's GIANT DELPHINIUMS

LATEST AND BEST

These are among the finest of perennials. All are beautiful, hardy, and live and bloom freely for years. Prevailing colors are blue and violet with intermediate shades. Plant in good moist friable loam, with old manure mulching twice a year. Under the best conditions, the better Hybrid Delphiniums will attain 6 or 7 feet in height, with large flowers borne closely upon long spikes. Cropped to 6 inches after blooming in spring new stalks develop and bloom in fall.

GERMINATION NOTES: To improve germination, place seed between moist blotters and leave directly under freezing compartment in refrigerator for a week prior to planting. Then see directions in "Gardener's Handbook" pg. 7.

Victorious All Double

Petunia, All Double America

Thrill to the Lively Beauty of Fine PETUNIAS

The All Purpose Flower: For lovely beds, attractive borders, cutting, charming porch boxes, winter pot plants.

A Type and Color to please All Doubles, Giant ruffled singles, Plain edged giants, Small prolific singles. Pink, yellow, red, every taste: rose, purple, lavender, blue, white. Dwarf or tall, spreading or compact.

Petunias stand pre-eminent as a hardy, beautiful, all purpose flowering plant. Readily started from seed, they soon come into bloom, becoming a glowing mass of exquisite, showy, and deliciously fragrant flowers, in bloom from early summer until frost. They may be started in fall or early winter indoors to make blooming window plants for late winter and very early spring. *Don't omit these beauties from your list.*

GIANT DOUBLE PETUNIAS Now in Complete Color Range

With the Return of the foreign-grown All Double Victorious Strain, which has not been available since 1943, and with the American-Grown All American All Doubles introduced in the past few years, we are glad to offer again a complete color range in Double Petunias. The seed are necessarily very expensive due to the fact that they have to be carefully hand pollinated and there is real art and scientific knowledge required to produce seed which will give consistently Double flowers. The seed are smaller and the seedlings weaker than the Single kinds, so require more care in starting.

Soil should be sterilized by pouring water thru it twenty-four hours before planting, and the little seeds planted on the surface of the soil. Then follow directions on pg. 3 and 4 of the "Gardener's Handbook" sent free with your order. The seeds are very tiny, and the 25c packets, contain only a few seeds as noted in the descriptions. We suggest that you obtain the larger packets, but list the 25c packets in keeping with our price policy. After the All Double Petunias get past the baby plant stage they are quite vigorous and can "take it" even where summers are hot.

AMERICAN ALL DOUBLES

1566—**AMERICA**—All American Silver Medal. Uniform, compact plants about 1 ft. high, with 18" spread. Bears Carnation type flowers of medium size 2" across of fresh rose-pink. Blooms from June until frost. Pkt. 40 seeds 25c; 100 seeds 50c; 200 seeds \$1.00.

1567—**COLOSSAL SHADES OF ROSE**. Silver medal winner. The largest of the all doubles. Flowers often 5" across are 100% double in varying forms, plain edged, frilled, curled and varying in color from light salmon-pink to deep rose. Pkt. (15 seeds) 25c; 100 seeds \$1.00.

1562—**ROSE MARIE**. Bronze medal. The plants are dwarf and very free blooming. Flowers are a delightful rose-pink shade, 8" and more across. Very fine for beds or borders, and good for cutting. Pkt. (15 seeds) 25c; 100 seeds \$1.00.

1561—**MRS. DWIGHT D. EISENHOWER**. Silver Medal winner. Flowers are soft mid-salmon 2 1/2 inches across. Plants are low and spreading, bushy and of good habit. Height about 16", spread about 30". Uniform in color and doubleness. Excellent for bedding or borders. Pkt. (10 seeds) 25c; 50 seeds \$1.00; 100 seeds \$2.00.

1563—**CANADIAN ALL DOUBLE**. A distinctly superior strain, producing 100% double flowers with quite dwarf, compact habit. While the flowers are not quite so full petalled as the Glorious All Doubles, the size of the flowers and the uniform dwarf habit make this an ideal strain for bedding or pot plants. Pkt. (20 seeds) 25c; 100 seeds 90c; 500 seeds \$3.00.

COLLECTION 028—5 Packets—one 25c packet of each American Double Petunia listed above \$1.00.

ALL DOUBLE PETUNIA

"VICTORIOUS"

Dwarf—Giant Fringed—Large Size

Plants dwarf compact, true and uniform. Very fine for borders, beds or pot plants. The flowers are large, 3-5" in diameter, and so frilled and fluted and full, that they appear as great fluffy balls. The most fully double of all Petunias.

1569—**PAN AMERICAN ALL DOUBLE MIXTURE**. An American strain of All Double Petunias containing all colors in large and small, ruffled and plain, tall and dwarf. Pkt. 25 seeds 25c; 100 seeds 75c; 500 seeds \$2.75.

NEW DWARF RUFFLED PETUNIA

1598—"GARDEN GIANTS"

The outstanding feature of this new variety is its satisfactory plant growth. The plants uniformly develop into well-rounded mounds 12-15" high. They start flowering when extremely small, and continue their gorgeous display all through the summer, holding their size and ruffling even under adverse conditions of heat and dryness. Because of its uniformity and continuous blooming, it is by far the best variety of Giant Ruffled Petunias for borders we have ever seen. Includes a wide variety of bright color combinations. Pkt. 25c.

1644—SUPER FLUFFY RUFFLES

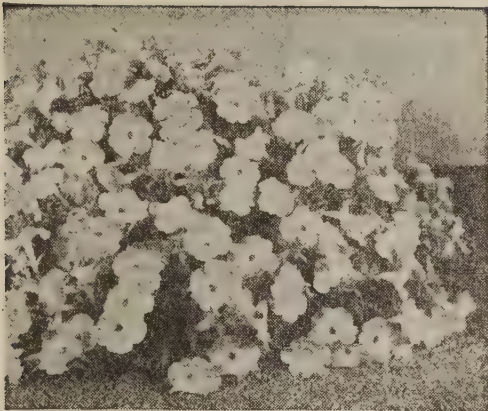

This is a well balanced mixture of pink, white, salmon, deep-rose, crimson and light blue. Outstanding in beauty, it is so ruffled and frilled that the flowers appear to be double. A very special strain which is superior to all other ruffled varieties. Try a packet. You will be well pleased. Pkt. 10c; 100 seeds 25c; 500 seeds \$1.00.

Mr. Park: April 12, 1949
I have had good results from all the seed I ordered from you. I think every seed of the double Petunia came up. Mrs. C. M., Claremont, N. C.

1598—GARDEN GIANTS. Pkt. 25c.

Most satisfactory Giant Ruffled Petunia for the Home Garden

Petunia Dwarf Bedding Bright Eyes

DWARF COMPACT PETUNIAS THE PERFECT BORDER.

(Hybrid Nana Compacta) ha, or hhp. 1 ft.

Plants are dwarf and compact, 10-12" high and form round, mound-like plants which suits them well to the border. Very free flowering, the plants are covered with bloom from early summer until frost. The flowers are of medium size 1½-2" in diameter. This is the best type for borders, edgings for taller plants. They also make shapely pot plants or window box subjects.

1621—**BRIGHT EYES**. (A.A. '46). A gay blanket of rosy pink, white throated flowers cover the dwarf 9 in. plant all season.

1620—**BLUE VIOLET**. (New). A good deep violet color. The flower has unusual substance.

1622—**CELESTIAL ROSE**. Glowing deep rose.

1623—**CREAM STAR**. Silver Medal 1940. 2½ in. pointed star-like flowers of soft creamy white.

1582—**CHEERFUL**. 12 in. Compact rounded plants. Flowers, clear pink salmon suffused.

1602A—**FIRECHIEF**. Color picture, front cover. The reddest Petunia you've ever seen! Dwarf, habit, free blooming. The all-time point winner since the All Americas were founded. Pkt. 25c.

1624—**FIRST LADY** (New). A.A. '41. Large 2½ inch flowers of pleasing clear light blush pink.

1619—**GLOWING ROSE**. The intense brilliance of this new Petunia makes it the most startling of all the dwarf bedding varieties. Individual flowers are much larger, and plants are even and do not become unshapely. It commences to bloom about 1 month earlier than other varieties and produces a profusion of intense glowing rose flowers thru-out the season until frost. Pkt. 25c.

1626—**PEACH RED**. Unique distinct new color of salmon cerise 2 in. fls. (A.A.)

1627—**ROSE OF HEAVEN**. Rose pink.

1628—**ROSY MORN IMPROVED**. Most popular of this group. Brilliant rose, broad white throat.

1629—**SILVER BLUE**. (Heavenly Blue). Light cambridge sky blue. Delightful, unusual color.

1653—**VELVET CRIMSON**. A new and long desired color in this class. A real reddish velvety crimson. Habit is compact and bushy. Pkt. 25c.

1584—**VELVET BALL**. Compact round 8 in. plants are smothered in 2½ in. flaming velvet flowers.

1631—**WHITE PERFECTION**. A.A. 1939. One of the best white petunias in existence. Abundant 2 in. snow white flowers, compact plants.

1652—**FANCY BLOTCHED AND STRIPED MIXED**. An unusual blending of the brightest and most contrasting blotched and striped flowers.

1633—**COMPLETE MIXTURE**. COLLECTION 029. Six starred (*) varieties Hybrid Compacta Petunia. 60c value for 50c.

BALCONY—Large Flowered Bedding

(Pendula) ha, or hhp. 1½ ft. This is the strongest growing of all Petunias, and succeeds under the most trying conditions.

Habit is trailing with long branches which are covered with bloom. Flowers are larger than the Hybrid Bedding type 2½-3" across. This type should be used for mass effect in beds, and the pendulous habit suits it ideally to hanging baskets or porch boxes.

1571—**BLACK PRINCE**. Rich deep velvety mahogany red with beautiful dark throat. Luxuriant.

1572—**ROYAL BLUE**. Large, deep velvety blue.

1573—**SNOW STORM**. One of the finest whites in Petunias.

1574—**STAR OF CALIF.** Crimson, white star.

1575—**COMPLETE MIXTURE** Balcony Petunias.

NEW FRINGED NANA COMPACTAS

This new strain has the dwarf compact habit of the Dwarf Compact Petunias (Hybrid nana Compacta) with the giant fringed flowers of the Grandiflora Fimbriata type. It is a combination of two of our most popular types. See picture of Bright eyes and Theodosia above and visualize the striking beauty and usefulness of this new type.

1601A—**INNOCENCE**. Large pure white fringed, ruffled flowers cover the compact plant. Pkt. 25c.

1600A—**ROSE CHARM**. Brilliant rose. Large fringed flowers with wide open throat. Pkt. 25c.

1580A—**CARMINCITA**. The nearest approach to a true scarlet Petunia to date. Medium sized, well fringed and ruffled flowers are brilliant scarlet-orange, and are borne on dwarf compact plants. Pkt. (about 40 seeds) 25c; 3 pkts. 65c.

Petunia Giant Fringed Theodosia

GIANT FRINGED

(Hybrid Grandiflora Fimbriata 12-16". The flowers of well grown plants of this type will average 4-6" across and have a charm all their own due to the attractively fringed and frilled blooms. Fine for beds, borders, unexcelled for pots or window boxes.

1587—**DAINTY LADY**. New Petunia in a distinct color. The semi dwarf compact plants bear delicately fringed golden yellow flowers.

1590—**VIOLACEA**. (Ocean Blue). A giant flower.

1599—**SCARLET BEAUTY**. Scarlet rose. A beautiful color and a giant flower.

1591—**WHITE BEAUTY**. A pure white beauty with delightfully frilled and ruffled edges.

1589—**THEODOSIA. IMPROVED**. Bright rosy pink with blending golden center.

1592—**COMPLETE MIXTURE** of Fringed Single.

GIANT FLOWERED—Plain edged.

(Hybrid grandiflora) ha, hhp, 12-16". Flowers are large 3-4" across, plain edged and deeply lobed. Stronger growing than the Ruffled and Fringed type and are excellent for beds, borders, pots, or cutting. Vigorous and spreading.

1646—**BURGUNDY**. Rich wine red, white throat.

1647—**ELK'S PRIDE**. Largest, darkest, best velvety purple.

1648—**PINK GLORY**. Extra large deep pink.

1649—**PURPLE ROBE**. Deep purple edged silver.

1614—**VIOLACEA**. Rich deep violet.

1650—**WHITE CLOUD**. Large, pure white.

1651—**COMPLETE MIXTURE** Giant Flowered.

PETUNIA HYBRID BEDDING 1½ Ft.

(Hybrid) ha, or hhp, 1½-2 ft. Stronger growing than the dwarf compact type with larger flowers 2-3" across. Habit of growth is more spreading and taller. Produces a mass of flowers from early summer until frost even under trying conditions. Its best use is in beds for mass effect, or in porch boxes.

1601—**BLUE BEE**. Striking and attractive in richest violet blue shade. A delightful color.

1604—**FLAMING VELVET**. Reselected. A.A. Gold Medal '36. Rich, brilliant velvety blood red fls.

1605—**GENERAL DODDS**. Very darkest red of all.

1606—**HOWARD'S STAR**. Handsome velvety-purple with pure white star in the center.

1609—**RADIANCE**. Silver Medal 1941. For richness and brilliance of color, this beautiful cerise flower with an undertone of salmon shading to gold at the throat is hard to beat.

1611—**TOPAZ ROSE**. Fiery velvety rose of a brilliancy seldom seen, with suffusion of gold and topaz rose in the throat. A.A. 1938.

1612—**WHITE KING**. The best white Hybrid.

1613—**SELECTED HYBRID BEDDING Complete Mixture**. Pkt. 10c; 1-32 oz. 25c.

MINIATURE—Best for Edging

6-8 Inches Tall—Compact, Covered with Bloom

1634—**BLUE BALL**. Deep violet blue.

1635—**IGLOO**. Compact best pure white.

1636—**PINK GEM**. Very compact and free-blooming. Soft pink flowers.

1637—**ROSE GEM**. Rich deep rose.

1639—**VELVET BALL**. Deep velvety crimson.

1640—**VIOLET GEM**. True miniature in plant and flowers. 6 in. plants with dark green foliage, smothered in rich violet blue 1½ in. flowers.

1642—**MINIATURE MIXED**. Complete mixture.

Petunia F₁ Hybrid Silver Medal

NEW F₁ HYBRIDS

More vigorous, more profuse, larger flowers, almost 100% true, earlier and more uniform due to their hybrid nature. The seeds are necessarily more expensive than the common types.

MULTIFLORA PETUNIAS (F₁ Hyb.)

The finest bedding Petunias ever produced. Flowers larger, more freely produced, completely cover the plants which do not break open. They are uniform and extra early blooming.

1560A—**PINK CHARM**. 1 ft. Deep glowing rose. New for 1950, don't miss it. Plants of the dwarf compact type with extra large flowers. Fine for borders or beds. Pkt. 25c.

1560—**PINK SENSATION**. 2 ft. (A.A. 1948). Unusually large rose-pink flowers are borne so profusely the tall bushy plants seem completely covered with color. Pkt. 25c; 3 pkts. 65c.

1600—**SILVER MEDAL**. 1 ft. (A.A. 1949). The plants are compact and rounded, covered with large flowers of richest, purest salmon-pink yet seen in Petunias. Pkt. 25c; 100 seeds 50c.

DWARF FRINGED F₁ HYBRIDS

New and outstanding. Dwarf compact plants with large fringed, ruffled flowers. Hybrid vigor, free flowering and earliness.

1603—**HYBRID SNOWWHITE**. Pure white with yellow throat, well fringed flowers. Dwarf, compact, vigorous, free blooming. Pkt. 25c.

1608—**PAN AMERICAN HYBRID #1**. Fringed flowers of deep scarlet salmon, almost as bright as Carmincita. Flowers large abundantly produced on dwarf vigorous plants. Pkt. 25c.

1610—**PAN AMERICAN HYBRID #2**. Gorgeous carmine rose, uniform, extra dwarf, well fringed. Blooms as profusely as the hybridas all summer yet retains its dwarf compact habit. Pkt. 25c.

PETUNIA CULTURE. This is covered more fully on page 11 of "The Gardener's Handbook" sent free with your order. We treat all seeds of Petunias with Semesan to help prevent "damping off" which together with covering too deeply causes more failures than anything else. The seed may be sown indoors about 8 weeks before your usual outdoor planting time to give you blooming plants in early June, and because the seed are small should be sown in boxes and transplanted even when planting late.

ZINNIA
LUTHER BURBANK

2237—LUTHER BURBANK.

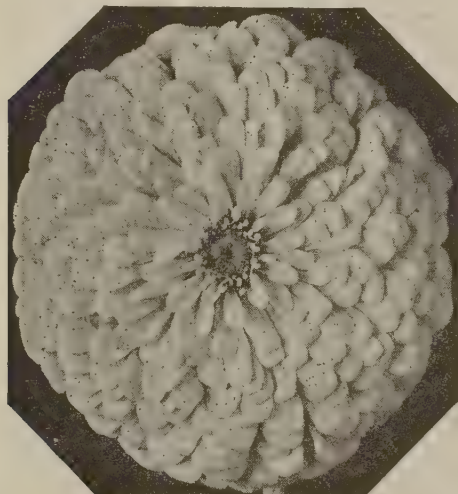

So named because the initial development work in creating this Giant Zinnia was done by Luther Burbank. Don't fail to grow these this year in celebration of the centennial of Burbank's birth. The flowers are even larger than the Giant Dahlia Flowered and are distinguished because of their full range of pastel colors. Don't miss this fine new Zinnia. Pkt. 25c.

CALIFORNIA GIANTS

3-4 ft. tall—Giant flowers. Taller than the Dahlia flowered type, with flowers just as large 5-6" in diameter. The overlapping petals are loosely placed and the flowers are flattened, being only about 1 inch in depth.

SUPER CROWN O' GOLD
2230—PASTEL TINTS. The "most wonderful new Zinnia to date." Husky plants bear enormous, long-stemmed flowers of entrancing soft pastel tints underlaid with rich gold.

2233—SOUTH AFRICAN GIANTS MIXED.

This is the finest strain of giants ever produced. Flowers are of perfect form and multi-varied vivid colors, and of gigantic proportions. We have imported this seed especially for your pleasure. Order early for supply is short. Pkt. 25c.

2197—DAVID BURPEE

New and different. The very large flowers are made up of curled, quilled chrysanthemum-like petals and the shades and tones from soft cream, chamomile, buff, apricot, burnt orange, rose and peach, with some solid colors and some a combination of colors.

2212—HOWARD'S CRESTED MIXED Surpassing in size, form and beauty the popular Scabious type. 4-5 in. flrs. with full cushioned centers, 50% true to type. Pkt. 25c.

2211—HARMONY SCABIOUS TYPE MIXED. 2½ ft. medium sized Scabiosa-like flowers in bright color range. Flrs. smaller, but come more true to type than Howard's Crested.

2150 — Cactus Flowered

Giants. Flowers are informal and make a gorgeous table decoration. Its long petals are quilled, curled and pointed with no center showing. Flowers 4 in. across and 2 in. deep, include a wide range of colors.

MAMMOTH DAHLIA TYPE

Zinnias hha, 2-3 ft.

Dahlia Flowered Zinnias are most popular due to their great size (a well grown flower is often 6 in. across and 4 inches deep), and their fine form which resembles the Show Dahlias with broad petals, closely imbricated, seemingly piled one upon the other.

2166—BUTTERCUP. New bright yellow.

2167—CANARY BIRD. A delicate shade of primrose, very large and holds its color well.

2170—CRIMSON MONARCH. Largest and best red, flowers often 8 in. across: freely borne.

2171—DREAM. A beautiful shade of soft lavender-blue, turning to purple as the flower ages.

2172—ELDORADO. Charming shade of rose on salmon.

2173—EXQUISITE. A most pleasing shade of Tyrian rose, deepening towards the center; huge.

2174—GOLDEN DAWN. Enormous golden.

2175—GOLDEN STATE. Yellow in the bud, turning to vivid orange when in full bloom.

2176—ILLUMINATION. Brilliant deep rose.

2177—LUMINOSA. Bright deep pink suffused salmon.

2178—METEOR. Rich glowing red, suggesting the deep toned shade of velvet; excellent; lovely.

2179—OLD ROSE. A fascinating and distinct color; extra large and beautiful flower.

2180—ORIOLE. Immense orange and gold flower, changing slightly as it ages, but at all times very pretty.

2181—POLAR BEAR. Immense, pure white, the best white yet found in Zinnias, true Dahlia form.

2182—PURPLE PRINCE. Rich deep purple.

2183—ROYAL PURPLE. (A.A.) Truly kingly in its rich, deep robe of purple. Uniform 3 ft. plants, large, fully double flowers.

2186—WILL ROGERS. (New). The loveliest and most brilliant scarlet red. A worthy addition.

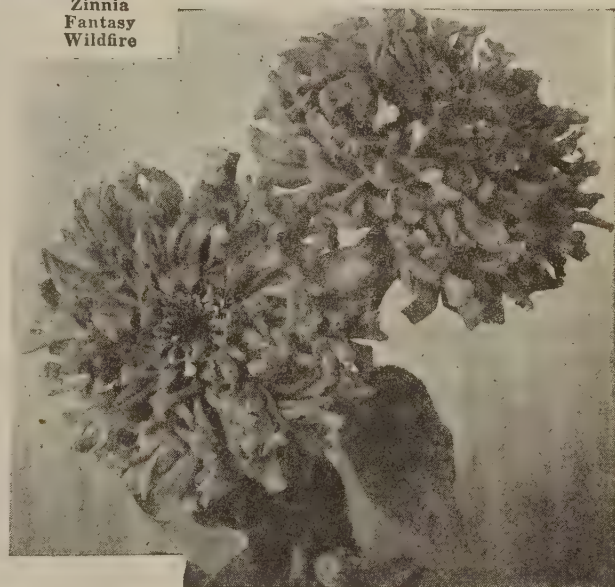

024—COLLECTION OFFER. One packet each of the six starred (*) varieties above, value 60c for 50c.

2189—PARK'S UNEXCELLED MIXTURE. A specially prepared mixture of the choicest colors.

2188—PASTEL DAHLIA - FLOWERED MIXTURE. For a very choice blend, we offer a marvelous mixture of delicate shades; light pinks, creams, lavenders and whites.

For a beautiful cut flower combination use Crimson Monarch—10c and Polar Bear—10c. (Both 10c packets for 15c.)

2227—**OLD GLORY**. Flowers have a white base with rose red striations and markings. The plants grow 2 1/4 ft. tall and bear profusely the 2 1/2 to 3-in. flowers. Excellent for cutting and fine for the garden bed. Pkt. 25c.

2228—**THE CLOWN**. Thus named because it looks so jolly with its bright orange and gold. The flower has a golden yellow base with bright reddish orange striations. Pkt. 25c.

Earliest of all Zinnias—Early Wonder.

2190—**EARLY WONDER MIXED**.

Quick to bloom, for short season locations and Autumn planting. Plant habit is unique: 18-24" tall, basal branching with long stems, no laterals and few leaves. Ideal for cutting. 3-4" flowers of rounded shape and distinct petal form. The mixture is complete including bright "Spanish Colors". Pkt. 25c.

2238—**Fandango**. Salmon cerise pink.
2239—**Fiesta**. Darkest red; 2241—**Padre**. Scarlet.
2240—**Gypsy**. Shades of deep orange; 2190—**Mixed**.

SMALL FLOWERED

LILLIPUT, Button-flowered, 1 ft. Branching plants, small double flowers; new and beautiful; fine for cutting. Known as Gem Zinnias. In following colors:

2214—**Canary**; 2216—**Pink**; 2217—**Purple**; 2218—**Salmon**; 2219—**Scarlet**; 2220—**White**; 2222—**Mixed**.

2213—**LILLIPUT BLACK RUBY** (1941 A. A. Bronze Medal), 2 ft. Velvety rich blackish maroon.

2215—**LILLIPUT DAINTY GEM**. Gay, colorful and intriguing bi-color. Blooms are bright rose pink at the center, lighter flesh pink at the rim.
2221—**PASTEL LILLIPUT MIXTURE**. These delightfully small Zinnias are in lovely soft shades of apricot, peach, creamy yellow, shell-pink, delicate salmon, light rose and orchid. The small symmetrical flowers in this specially prepared mixture will make an attractive decoration.

2222—**UNEXCELLED LILLIPUT MIXTURE** contains all of the button-flowered types and colors.

2223—**LINEARIS**, 8 in. A beautiful window box, border or edging plant. The myriads of golden orange flowers (each petal with a lemon stripe) smother the compact plant. Blooms in six weeks.

BEDDING ZINNIAS

2206—**GAILLARDIA-FLOWERED** (Navajo).

2226—**RED RIDING HOOD** (Gracillima). Free flowering miniature of deep scarlet. Brilliant bedder and exquisite for table decoration.

2208—**HAAGEANA DOUBLE PERFECTION** (Mexican), 1 ft. Charming long-stemmed small flowers in brilliant display. Lovely for beds.

BABY ZINNIAS

CUPID, 1 ft. Small, dainty button-like flrs.

2232—**TOM THUMB GEM**. Very dwarf 4 to 6 in. plants covered with tiny button flowers in a wide color range. Excellent for pot or border.

ZINNIA CULTURE

Zinnias are of easiest culture. For an extra early start, seeds may be sown in flats and transplanted; however, they grow more sturdily if sown in the bed where they are to stand after all danger of frost has passed. When plants are a few inches high, keep well cultivated and give thorough soaking by the trench method every two weeks.

The Best SWEETPEAS

The Sweet Pea has all the good qualities of a perfect annual for general cultivation. It is easy of culture, growing in almost any soil and sunny situation, begins to bloom when small and, if freely cut, will continue for a long period. Flowers are rich and colorful, deliciously fragrant, and are freely borne on long stems. Excellent for cutting. **CULTURAL DIRECTIONS** pg. 9 "Gardener's Handbook."

CHRISTMAS SPENCER—or Early Flowering.

Flowering a month earlier than the Giant Spencer type, this class has large waved flowers, long stems and many are fragrant. Because of the earlier flowering characteristic, these will flower over a much longer period before the heat of summer curtails them. Recommended for all sections where spring is late, for greenhouse culture, for winter flowering in the deep south. Pkt. 10c; 25c.

1963—**BRIDESMAID**. Silvery pink. 1968—**HOPE**. Pure white.
1965—**FRAGRANCE**. Best lavender. 1971—**SHIRLEY TEMPLE**. Rose pink.
1966—**GARDENIA**. Ruffled white. 1976—**WAVES**. Ruffled mid-blue.
1967—**GRENADIER**. Scarlet. 2001—**PATRICE MUNSEL**. Orange.

1977—SPECIAL MIXTURE CHRISTMAS SPENCER SWEET PEAS

In a grand mixture of choice named varieties, blended to give a balanced color collection. In bloom several weeks ahead of the Standard Spencers. The wonderfully large, well formed flowers are produced on long sprays in pleasing and beautiful shades and tones. Pkt. 10c; Giant Pkt. 25c; 1 oz. 45c; 1/4 lb. \$1.35.

GIANT STANDARD SPENCER SWEET PEAS

This well known type blooms later than the Christmas Spencers, but is more vigorous and withstands heat. Pkt. 10c; 1 oz. 35c; 1/4 lb. 85c.

1979—**CAPRI**. Clear silvery blue. 1986—**LOCH LOMOND**. Mahogany.
1980—**CRONY**. Soft golden salmon. 1987—**MAYFAIR**. Shell pink.
1983—**GIGANTIC**. Large white. 1990—**RED ROVER**. Dark crimson.

1998—**OLD FASHIONED SWEET SCENTED**. A complete mixture. More fragrant than modern types. Pkt. 10c; Giant Pkt. 25c; 1 oz. 40c.

1999—RUFFLED & FRILLED

A specially prepared blend of all the best ruffled and frilled varieties in complete well balanced mixture. Pkt. 10c; 1/2 oz. 20c; 1 oz. 30c; 1/4 lb. 75c.

DWARF SWEET PEAS

Wonderful for bedding or for borders.
1996—**CUPID SPENCER**. 6 in. Complete Special Mixture. Pkt. 10c; 1/2 oz. 25c; 1 oz. 40c.

NEW HEAT RESISTANT SWEET PEAS

That New Spring Flowering

More heat resistant than Christmas Spencer this new Sweet Pea comes into bloom just after the Early Type with a heavier growth and more abundant production of large flowers on long stems. Because of its heat resistant character this type has a longer period of bloom than the Earlies.

2000—**Mixed Blended Colors**. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 45c; 1 oz. 75c.

2002—CUTHBERTSON'S EARLY

FLOWERING. Very heat resistant, this fine new strain begins blooming earlier than the standard Spencer, and continues to bloom well into the summer when the heat is too much for other kinds. Flowers are as large as the Standard Spencer with fine long stems. This is the finest kind for use where summers are hot. Pkt. 10c; Large Pkt. 25c; 1/2 oz. 45c; oz. 75c; 1/4 lb. \$2.00.

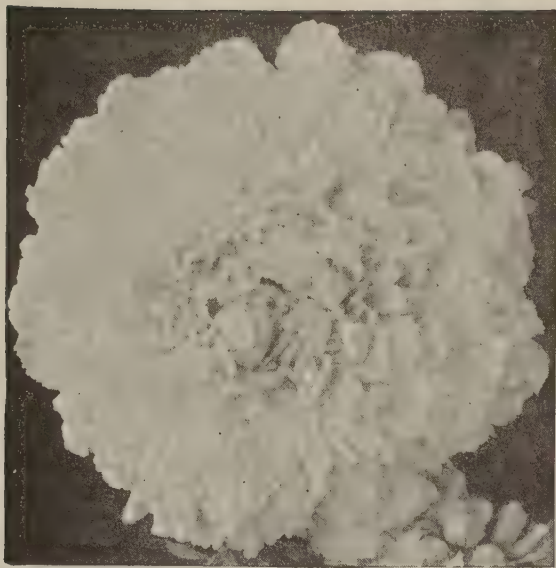

CUTHBERTSON'S Heat Resistant Sweet Peas

CHOICE FLOWER SEEDS—PART ONE

ANNUALS and PERENNIALS

Blooming the First Season

ANNUAL FLOWERS are those which grow, bloom, seed and die in one season. There are attractive annuals for every purpose. Some are fine for cutting, others for beds or borders, rock plants and climbers. We have listed in Part 1 the finest of all Annuals, and the perennials which may be treated as annuals in that they will bloom the first season from seed.

HARDY FLOWERS are those which may be sown in early spring as soon as the ground may be worked, or in fall to come up with the first breath of spring for earlier blooms. Hardy perennials and biennials may be planted in July or August and transplanted to permanent location about 1 month before frost where they live over with the protection of a mulch to give bloom in the spring. We think it best to sow perennials and biennials in the spring so that they can become better established before winter.

HALF HARDY FLOWERS listed with the symbol hh may be started early indoors for early bloom, or they may be planted outside when danger of frost is over. Half Hardy perennials need winter protection in the Northern states.

KEY TO SYMBOLS

Ft. or In. denote the height of the plant in feet or inches.	C—Especially valuable for cutting.
ha, hardy annual	M—Prefers moist, well drained soil
hha, half-hardy annual	D—Will succeed in Dry or sandy soil
hb, hardy biennial	R—Fine for Rock Gardens
hhb, half hardy biennial	S—Prefers or will succeed in semi-shade
hp, hardy perennial	B—Fine for beds or borders.

BALSAM Camellia Flowered

EASY TO GROW

BALSAM

Touch-Me-Not or Lady Slipper

Among the most popular, beautiful and showy of the easy growing annuals are the "Touch-me-nots" coming in a great many colors, some pleasingly variegated. The flowers are large and as double as roses, waxy in texture, admirable in beds and borders, thriving in sun or shade in any rich soil, and doing well in pots or beds. Started in autumn, they bloom in the window in winter.

300—BALSAM CAMELLIA FLOWERED, 2 ft. This is perhaps the finest Balsam in cultivation. It is known as Camellia-flowered because its flowers are like Camellias in general form and appearance. Plants grow 2 ft. high, branch symmetrically, and become little trees covered with elegant bloom. Large double waxy flowers. Splendid Mixture.

298—BALSAM NEW FLOWERING BUSH DWARF MIXED. 1 ft. These bear their flowers on spikes above the foliage. They are desirable for beds and are also showy as pot plants. The flowers are fully double. ("Splendid mixture of colors.")

296—TORCH. Bright red rose Double Bush Type. 301—ROSE FLOWERED MIXTURE. Large, full double rose-like flowers borne in profusion on a strong growing bushy plant.

297—BALSAM. All types mixed.

The flowers are very large, fragrant, of the most varied and exquisite colors and variegations, and borne on long spikes. They bloom continuously during summer and autumn and are largely used for summer beds and borders, as well as for growing in pots for winter-blooming. As cut-flowers they are fashionable, and last well in vases. The plants are so readily started from seeds, bloom so early the first season and are so easily grown under almost any condition that they merit a high place in every selection of choice annual flowers. Our mixtures are especially prepared and will please you.

Part IV PARK'S PERENNIAL FLOWER SEEDS

for Permanence and Charm

These are valuable subjects of the flower garden, as most of them are not only showy and beautiful when in bloom, but will do service year after year for a long period, enduring cold, excessive rain and drought, regardless of neglect and improper attention. They are easily grown from seeds. Thorough preparation of bed and good care, will award you with lasting beauty.

Directions for making outdoor beds and sowing seeds are sent with every order.

Hp. HARDY PERENNIALS are hardy plants which will live and bloom every year for a long period. Plants grow to the flowering stage each year and die down again to the roots which remain alive but dormant until the next season. They are very valuable for borders and cut flowers, and once established require less care than the annuals.

Hb—HARDY BIENNIALS are those which bloom the second year from seed, then die. For a continuous display of this type, seed must be sown every year.

KEYS AND NOTES

The varieties listed in Part IV are all hardy perennials or biennials, and may be sown in spring or midsummer. We recommend sowing perennial seeds in the Spring. Seeds germinate better in the cool weather than in the heat of mid-summer, and the longer growing period produces larger, plants which winter over more successfully.

THE HARDY PERENNIALS AND BIENNIALS LISTED IN THIS PART will bloom the second year from seed.

THE VARIOUS VARIETIES ARE KEYS. See page 13 for symbols.

Geo. W. Park Seed Co.

Sirs: Feb. 24, 1949

Every year I start a few perennials from seeds, also unusual flowers and have had great success. The neighbors are amazed at the variety of flowers I have from early spring until frost. Mrs. G. S. C., Newton, Kans. In answer to our request: Mrs. Ella Boblett of Birmingham, Ala., writes: Certainly you may use my letter, I only wish it was more detailed. Everyone knows that Park is good. Note: It is this appreciation of our efforts by you, our customers, that makes us want to give even better service and strive to supply even better seeds. Park.

PRIMROSE CULTURAL NOTES

Seeds of hardy Primroses should be sown in pots or pans as early in the year as possible, and after a good watering, should be covered with a piece of glass and placed outdoors against a north hedge or wall where the soil will be frozen. Then when milder weather sets in, bring the pots into gentle warmth and the seeds will germinate freely. For sowing at other times of the year, seed may be placed in the refrigerator for similar effect. The seeds are often tardy in starting, and should be placed in a seed bed where they will not be disturbed until seeds have had time to germinate. Primulas need partial shade, rich, porous soil with plenty of humus such as leaf mold. They like the east side of hill, shelter from wind, good drainage.

DEPENDABLE

Geo. W. Park Seed Co. Mar. 4, 1949

I have been planting your seeds since 1932. I can't begin to tell you how much pleasure I have had; your seeds never fail me. My garden has been the show place in every house I have lived in.

Florence White, Whittier, Calif.

Note: Careful, patient care as well as good seeds contributed to Miss White's success.—Park.

Pyrethrum, Park's Double

PAINTED DAISY

The beautiful single and double Pyrethrums are hardy perennials blooming in May and June. When the blooming period is over, they may be cut back heavily, which will cause them to have a second blooming period later in the summer. The single kinds are extremely light and effective, and last a long time in perfection. The double kinds are exquisite in form and coloring, and are one of our most popular perennials. Don't fail to add these to your order.

1549—**GERANIUM SANGUINEUM.** 1 ft. Hardy—not for indoor culture. In color not far from blood red tho this varies. Pkt. 25c.

TO CONTROL "DAMPING OFF"

"Damping Off" is a microscopic fungus growth which attacks the baby plants just as they emerge from the ground or while they are still small, and is the reason for many failures which are blamed on the seed, especially where very small seeds are concerned. It may be overcome by treating the seed (We do this for you as an extra "Park Service"), and sterilizing the soil. (Bake in the oven or pour boiling water thru it 24 hrs. prior to planting.)

Where sterilizing is impractical, as with an outdoor bed or cold frame, spray the soil, just as the seedlings appear, with Semesan solution (1/3 oz. to gallon of water). We offer SEMESAN in 1/3 oz. Pkts. for 20c. This is enough to spray 40 square feet of bed.

IMPATIENS—Patience or Sultana

In bloom every month of the year.

For the window in winter, porch box in spring, a shady bed in summer. Impatiens are easily grown from seed and begin to bloom in about 3 months from sowing. The flowers are 1½-2" in diam. with graceful curving spurs, and display colors of red, rose, pink, white and shades between.

1030—**Holstii.** hhp, 2 ft. Brilliant scarlet.

1031—**Holstii Hybrids.** hhp, 2 ft. A great variety of colors. Large 2" flowers with slender downturned spurs.

Flowers are the sweetest things that God ever made and forgot to put a soul into. —H. W. Beecher.

Dear Sirs:

COLEUS

New York, N.Y., Feb. 14, 1949

We tried all seeds and found that yours gave us best results, even such things as African Violets, Gloxinias, Begonias, etc. Your "Gardener's Handbook" is worth its weight in gold. Mrs. R. Copit.

All Seeds: Pkt. 10c; 23 for \$2.00; Gt. Pkt. 25c; 11 for \$2.00.

1744—Primula Obconica Gigantea. Pkt. 10c

PRIMULA OBCONICA

P. Obconica Gigantea, New Giant Flowered Primula. The engraving gives some idea as to the size of these new free blooming giants. Our mixture contains the most varied and brilliant colors.

1741A—Wyaston Wonder Gigantea Crimson has flowers almost twice as large as any other Obconica variety. Bright crimson red. Pkt. 25c.
1740—Pure White; 1741—Deep Carmine Red;
1742—Bright Blue. 1743—Deep rose;
1744—Gigantea Splendid Complete Mixture.
1707—HYBRID PRIMULA Kewensis. 15 in. $\frac{3}{4}$ in. flowers in large umbels are bright yellow and deliciously fragrant. The yellow coloring is very rare in Window Garden Primulas. Pkt. 25c.

Streptocarpus Hybrids, Cape Primrose

1955—Giant Streptocarpus Hybrids

Here is a new race of Giant Streptocarpus Hybrids that will be eye-openers to many who grow fine window plants. For thirty years the European plant breeders have been hybridizing and selecting, using the finest known species and varieties; and these earnest efforts have resulted in a magnificent strain of Hybrids, the flowers of which are surpassingly beautiful in size, form, rich and varied colors, and free and continuous blooming. The foliage too has been more or less improved. As easily raised from seed as Gloxinias. The seeds are of Gloxinia size, so of course, must be carefully sown. Started in early spring, the plants will begin to bloom in August and continue freely in bloom till winter. The flowers are trumpet shaped, about 2" long, very graceful, and wonderfully varied in color, ranging from white to rich blue and crimson, the throat and lower segments often splashed with white or purple. If you grow Gloxinias and Calceolarias, don't fail to get this.

2014—THEA Sinensis, Tea Plant. hhp. Beautiful, ornamental both in foliage and flower. Treated leaves become tea of commerce. Choice plant.
Use Quassia Chip Spray to protect your plants from insect pests. $\frac{1}{4}$ lb. Quassia Chips 35c.
1447—OXALIS (Little Buttercup). Mixed.
1448—PURALIS Bed. 4 in. Purple lvs. Yellow fls.
1689—POINSETTIA Pulcherrima. The beautiful Christmas flower. Started in spring the plants will bloom for Christmas. Seeds for this have not been available since before the war. We have been fortunate in obtaining 1000 seeds. First come, first served. 5 seeds 25c; 25 seeds \$1.00.

1954 — STRELITZIA REGINA (Bird of Paradise). A S. African herb of the Banana Family. 3 ft. hhp. Long leaves and yellow flowers with dark blue tongues and purple boat like bracts. Very odd and distinctly beautiful. Directions with every packet. Will endure some neglect but unless well cared for will fail to bloom. Worth ALL the trouble. 1 seed 15c; 2 seeds 25c; 10 seeds \$1.00.

Strelitzia Regina Bird of Paradise

1688—POINSIANA Gillesi (Also sometimes called Bird of Paradise). Flowers light yellow with bright red stamens. 3 seeds 25c; 15 seeds \$1.00.

PARK'S FINEST PRIMROSES

PRIMULA. hhp. These are hardly equalled by any other flower for winter blooming. The plants are easily raised from seeds, begin to bloom in six to eight months, bloom in winter and spring.

CHINESE GIANT FRINGED

Anyone can grow these successfully from seeds, and a window full of the blooming plants is an object that attracts the attention and admiration of all. Finest strains in rich and beautiful colors. 1731—Scarlet; 1728—Crimson; 1729—Dark Blue. 1734—Choice Mixed of All colors.

1733—Gigantea Mixed. Extra large fls. Pkt. 25c.
1730—Park's Double Flowered Mixed. Pkt. 25c.
1745—Chinese Star Sorts. These are more free-blooming than the Giant Fringed, embrace as many colors, and are more easily cared for. Succeed under adverse conditions and are as attractive as the giant Primrose, and more satisfactory. **PRIMULA NOTES:** Sow seed from January to May for fall and winter flowers. Use light sandy soil, and barely cover the seed. Close attention must be paid to moisture. Keep the soil moist, not wet. Remove glass and paper covering as soon as germination begins. Darkness essential to germination.

BUTTERFLY FLOWER

SCHIZANTHUS, Butterfly Flower. These are splendid annuals, the plants growing from one to two feet high, branching freely, and are almost smothered with delicate orchid-like bloom. The markings are white, rose, gold, crimson, violet. 1876—Dr. Badger's Hybrids. hha, 1 ft. This is the finest strain of Schizanthus. Mixed colors. 1877—Retusus Hybrids. hha, $2\frac{1}{2}$ ft. Giant flowers $1\frac{1}{2}$ -2 in. across. Strong growing. Mixed colors. 1886—Monarch Hybrids. A distinctly dwarf strain with large flowers. Complete color range. New and the finest for use as a pot plant. Pkt. 25c.
1880—Complete Special Mixture of Schizanthus.

PASSION VINE (Passiflora). hhp. Magnificent flowers of unusual structure followed by egg-shaped fruits. Tendril climbing vines.

1545—Coerulea. Showy blue flowers.
1546—Edulis. Blue and white flowers, showy, delicious purple, egg-shaped edible fruits.
1559—Incarnata—Two inch flowers, white with pink crown. Fruit yellow, attractive and edible.
1547—Mixture of Passiflora.

1687—PLUMBAGO Capensis. Charming climber with light blue flowers. Extra choice.

1887—SMILAX (Myrsiphyllum) Handsome shining foliage, pretty pot trellis, fine to cut.

AFRICAN VIOLETS FROM SEEDS.

P.S. Spring, 1949, Frederick, Md. Sure am pleased with my African Violets from your seed. They began to bloom in Aug. from Feb. planted seed. I only lost 2 out of 87 plants. Gloxinias also blooming. Mrs. M. C. Thomas.

Saintpaulia Ionantha, African Violet

1794—SAINTPAULIA Ionantha Grandiflora Mrs. Odom's Magnificent Strain (African Violet). hhp, 6". We are delighted to be able to offer seeds of African Violets again, and from one of the finest collections in America. All the colors, white, pink, blue, red, single and double are represented. Mrs. H. W. Odom is one of the foremost authorities on African Violets. The flowers must be carefully hand pollinated in order to produce seed. We are the sole distributors for Mrs. Odom's magnificent strain. Pkt. (50 seeds) 25c; 250 seeds \$1.00.

The seeds are very fine. Open pkt. over white paper and look closely or they might be lost. We cannot replace these very expensive, scarce seeds. 2136—Park's Select Window Garden Mixture. Many best kinds.

1738—Primula Malacoides, Sweetheart

BEAUTIFUL PRIMULA MALACOIDES

1738—PRIMULA Malacoides Sweetheart. Sweetheart adds a distinct bi-color to the group. The blooms are bright salmon pink, bordered with a wide band of white, softly flushed flesh pink. In the center is a tiny but distinct touch of golden yellow. Blooms in about 4 months. Pkt. 25c.
1735—DOUBLE MIXED. A beautiful new strain, very unusual in this family. Well formed, double flowers are borne on heavy wiry stems. Pkt. 25c.

LITTLE MIDGET

PARK'S MAGNIFICENT GLADIOLUS

Cut Flowers for your home from June until Frost

Perhaps there is not another summer flower more popular than the improved Gladiolus. In a bed the plants stand erect, bloom freely for many weeks, are showy and unequalled for cutting. Set the bulbs 5 in. deep and 6 in. apart; as hot weather approaches mulch with stable litter. Good garden soil, full sun, frequent cultivation around the base of the plant are the requisites for best results. Water copiously; as flower buds begin

Our bulbs are clean and healthy, high crown corms, guaranteed to bloom and give you pleasure and satisfaction. All are first quality No. 1 Bulbs 1½ inches in diameter, treated against thrip and disease. Where 1 corm is not priced allow ½ the 3 rate.

NOVELTIES AND OUTSTANDING GLADIOLUS

The finest Gladiolus of recent introduction. We have selected what we consider to be the leading Gladiolus varieties for the garden for cutting, for exhibition purposes. All are good growers, and prize winners.

B235—ABU HASSAN. (80 days) A novelty from Holland, with great merit, much better than Pelegrina. Rich deep violet blue. The finest dark blue yet. 20c ea.; 3 for 45c; 12 for \$1.75.

B269—BURMA. (Midseason) Large, heavily ruffled, very deep rose with beautiful velvety darker blotch. Nothing else like it. A show winner everywhere. 20c each; 3 for 50c; 12 for \$1.75.

B271—LAVENDER PRINCE. (Midseason) Distinct and unusual shade of lavender mauve. Tallest growing Lavender we know (5 ft.). Opens 6 well placed blooms. 35c each; 3 for 90c; 12 for \$3.15.

B233—MARKET QUEEN. The tallest Gladiolus to date. 40 inches of its 5 foot stem are covered with 4 in. florets of beautiful orange salmon. 8 to 10 open at one time. 30c each; 3 for 65c; 12 for \$2.50.

B272—MISS WISCONSIN. (Late Midseason) A shade of rose not common in Glads, but one badly needed. Opens 6-8 on an 18 bud spike. 35c each; 3 for 90c; 12 for \$3.15.

NEW WINTER HARDY GLADIOLUS

Have you ever heard of them? Well, here they are. Hardy in Michigan, Canada, anywhere in the U.S. Blooms in May outdoors; bulbs are smaller than regular Glads, but they multiply faster. **B279—Byzantinus Rubra.** Bright Cerise Scarlet. 45c each; 3 for \$1.20; 12 for \$4.80.

GIANT DAHLIAS

Are easily grown from Park's strong tubers.

THE VARIETIES LISTED here are selected with painstaking care from the thousands of varieties in cultivation. Those listed on these pages are the best growers, freest bloomers, and those listed as mammoth will give the largest flowers Dahlias can produce. Growing show dahlias does take careful disbudding, and proper care.

KEEPING CUT DAHLIAS. Strip the foliage except at the top, recut the stem and immerse in water as hot as the hand will bear. When water cools transfer the Dahlias to cold water and place in the cellar overnight. Treated thus they will keep for several days and increase in size.

DAHLIA CULTURE. This subject including how to prevent disease and get rid of insect pests is covered fully in "The Gardener's Handbook". For bedding effects plant on or a week before frostproof date. For exhibition blooms plant late (May and June). Late planting brings the plants into bloom during late summer and fall when the cool temperatures promote better blooms.

EXHIBITION DAHLIAS. Exhibition Dahlias and satisfactory tubers cannot be produced in the same hill. If you want 12 inch flowers, go after them with fertilizer, water and disbudding.

INDEX, GERMINATION and CULTURE GUIDE

When sowing seeds it is always best to divide the packets and sow at different times. Note the time and give good care until the plants have had time to appear. The following table gives the time normally required for germination of each variety of seeds. This time may vary as much as 25% either way. Do not condemn seeds until you have given them at least two or three trials. Those marked z or having the dagger (†) beside them may lie dormant for a year or more. The other tables are self explanatory, and while they are somewhat complicated, do give a great deal of information about each of the hundreds of species listed.

SYMBOLS USED IN TABLE

Germination Time	Habit	Best Use	Color	Time To Bloom	Culture
a—5 days	Tr—Trailing	Hb—Hardy border	B—Blue	a—Early spring	1—Of easy culture for beginners.

090—COLLECTION. One of each: 6 for \$3.00.

Butterfly Lily—35c each

B491—BUTTERFLY LILY. *Heuchium coronarium*. A strong growing moisture loving plant of great beauty. Beautiful, deliciously sweet scented flowers in terminal spikes among long slender leaves. The rhizomes are hardy in the South, but must be taken up and stored like Cannas in the North. Also makes a fine pot plant. Large rhizomes. 35c ea.; 3 for 95c; 12 for \$3.50.

The Magnificent Glory Lily, 95c each.

GLORY LILY

B399—GLORIOSA ROTHSCILDIANA. Exotic and different. Flowers are waxy, lily-like, 3 inches across with prominent curved stamens, crimson perianth is banded with gold and charmingly reflexed and waved. 95c each; 3 for \$2.75.

Easily grown: Plant the tuberous roots in sunny position and water generously in dry weather. Roots must be lifted before frost and stored.

B398—BLEEDING HEART

(*Dicentra Spectabilis*). Long racemes of graceful heart-shaped pink flowers are borne above the airy foliage in May or June. Hardy and perfectly at home in any part of the border, it is especially valuable for planting in the shade. Height 1½ ft. Dormant 2-3 eye roots: 75c each; 3 for \$2.00.

SPIDER LILY

B494—LYCORIS Radiata. A handsome Autumn-flowering bulb, which makes its growth during the winter and is dormant through the summer. The rosy-red flowers are interesting and artistic, appearing on tall stems followed by grass-like foliage which remains green all winter. Treat as a pot plant North. Hardy from Virginia south. Plant 4 inches deep. Blooming size bulbs: 25c each; 12 for \$2.40.

THE BLACKBERRY LILY

B490—(*Pardanthus Sinensis*)

A plant to please. Iris-like leaves with tall stems bearing two-inch showy flowers of orange and crimson; followed by ornamental black seed clusters from which it gets the name.

A strong growing perennial which thrives in a rich sandy soil in an open border or in semi-woodland shade.

A group among the shrubbery will lend an attractive note of color in August and September.

Roots: 35c each; 3 for 95c; 12 for \$3.50.

Seeds:—1544 Pkt. 10c; Giant Pkt. 25c.

Blackberry Lily

Mixed Achimenes—3 for 45c; 12 for \$1.50.

"MAGIC FLOWER"

Found in Mexico and known in Botany as Achimene Grandiflora, it belongs to the Gesneraceae, and is a near relative of the Gloxinia. The plants are spreading, grow 8-12 in. high, and develop the lovely flowers in graceful profusion. Achimene bulbs are very small by nature. Culture as for Gloxinias.

B302—PURPLE KING. Rich deep purple blooms. This is the most easily grown and profuse blooming variety. 20c each; 3 for 45c; 12 for \$1.50.
B303—MEXICANA or Blue Beauty. Produces the largest flowers of any Achimene (2½" diam.). Flowers are deep sky blue with white throat. 25c each; 3 for 60c; 12 for \$1.65.

NEW AND RARE ACHIMENES

B309—ADELE DE LA HAUTE. Shell pink with carmine center. 30c ea.; 3 for 75c.
B300—CARMINITA. Flowers deep carmine. Large velvety leaves have pink cast and seem frosted with white tinsel. 40c ea.; 3 for \$1.00.
B305—LITTLE BEAUTY. Leaves of deep amber green provide a background which shows the pure rose flowers to striking advantage. Most beautiful. 35c each; 3 for 85c; 12 for \$2.95.
B304—PURITY. Large flowers of pure snow white without a mark to mar its purity. The leaves are light green. 40c each; 3 for \$1.00; 12 for \$3.50.
B301—CRIMSON GLORY. Dark velvety crimson with yellow center. 30c each; 3 for 75c.
B306—SCARLET CHARM (Pulchella). Flowers are smaller but of bright scarlet color and produced in great profusion. 35c each; 3 for 85c.
B310—AMBOISE VARSHAFLET. Large flowers 1½-2" across are white blushed lavender with contrasting marks and dots of deep orchid. 35c each; 3 for 85c.
B308—STORM CLOUD. An entirely new Hybrid type which might have come from a cross with Gloxinias. Gloxinia shaped flowers have wide open throats. The foliage is large, Gloxinia like and most beautiful. Color: stormy blue and white. 45c each; 3 for \$1.20. Supply limited.
092—ACHIMENE COLLECTION. One of each. 10 Bulbs—Value \$3.35 for \$2.95. 093—3 of each \$7.50.

Gloxinias mixed 40c each; 3 for \$1.00.

GLOXINIA CULTURE. For a succession of bloom start bulbs every two weeks from January thru April. Pot with crown protruding, using equal parts of rich fibrous loam, sand, and leaf mold. A warm temperature (70 degrees) is required or bulbs will rot. Insure good drainage by placing gravel in bottom of the pot. Water sparingly until growth starts, then plenty of water should be given and care taken not to wet the leaves. An eastern exposure, well sheltered from strong wind and sun suits them. After blooming, withhold water to ripen the tubers, then store in sand for winter at 45 degrees.

Yellow Calla (Z. Elliottiana) 40c ea.

EXOTIC CALLAS

Easily grown from Seeds or Bulbs
What is more exciting than a well grown Calla with its perfect wax like flowers and beautiful foliage. They may be brought into bloom at almost any time as house plants, or bedded out during summer. Not hardy except Black Calla. WE ARE PLEASED TO OFFER SEEDS and several very rare species thru special arrangement with Mr. Len Mirzwick, leading Calla Hybridist.

WHITE (Aethiopica). Velvety pure white.
B356—BULBS. 1½-1¾" 45c each; 3 for \$1.15; 12 for \$3.85.

383—SEED. 3 seeds 10c; 10 seeds 25c.
YELLOW (Elliottiana) Bright golden yellow.
B352—BULBS. 2-2½" 40c ea.; 3 for \$1.10; doz. \$4.00.

393—SEED. 3 seeds 25c; 15 seeds \$1.00.
B381—DWARF WHITE (Godfrey). Flowers smaller but more freely produced. 45c ea.; 3 for \$1.15.
B382—ALBO MACULATA. Cream white with purple throat. Leaves mottled white. 40c ea.; 3 for \$1.10.

DWARF PINK (Rehmannii superba). From South Africa this is a lovely light pink, large flowered.
B353—BULBS 1½-1¾" 65c ea.; 3 for \$1.75.
395—SEED. 3 seeds for 25c; 15 seeds \$1.00.

051—CALLA COLLECTION. 5 bulbs. One of each Callas listed above. Value \$2.35 for \$2.15.
052—3 of each, 12 bulbs for \$4.95.

HARDY BLACK CALLA (Arum Pictum). Odorless, hardy. Giant black-purple flowers with bright violet spathe at the throat.

B355—LARGE BULBS. 2-2½" 75c ea.; 3 for \$2.00. Delivery September through November.

RARE AND BEAUTIFUL CALLAS

Supply of the following is very limited.

PURPLE HEART CALLA. (Melanoleuca) Flower spathe large, yellow and widely flaring, margin and tip recurved, revealing a sharply contrasting purplish black throat blotch. Foliage spotted.
B357—BULBS. Blooming size. 95c each.

394—SEED. 2 seeds 25c; 10 seeds \$1.00.

TUBEROUS BEGONIAS

No summer blooming pot plant surpasses these Giant Flowered Begonias. Plants grow and bloom freely in any partially shaded place, huge, waxy, delicate-textured flowers. For house plants or shady summer beds. Try a few.
All Large Bulbs—1½ in. to 2 in. in diam.

NEW MULTIFLORA TYPE

Especially recommended for outdoor group planting and borders, as well as for pots. Plants are compact and resist the sunrays better than other types. Each plant gives you a continuous array of flowers all summer in abundance. Bulbs are irregular in shape. Flowers are double but smaller than others we list. Each bulb will produce 50 to 100 flowers during the season.

B340—MULTIFLORA MIXED. Red, salmon, yellow, bronze, pink in fine mixture. (Mixed colors only.) 35c each; 3 for 95c; 12 for \$3.40.

CAMELLIA FLOWERED

Camellia Flowered Begonias are so named because they resemble closely the large 4-6 inch, perfect and fully double blooms of the Camellia. A single flower will often last a month or more, and the plants will bloom all summer.
